UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549 FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2022

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from __ Commission File Number: 001-40955

Aris Water Solutions, Inc. (Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

9811 Katy Freeway, Suite 700 Houston, Texas (Address of principal executive offices)

87-1022110 (I.R.S. Employer Identification No.)

77024 (Zip Code)

281-501-3070

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class Class A Common Stock, \$0.01 par value per share Trading Symbol(s) ARIS

Name of each exchange on which registered New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes \boxtimes No \square

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes 🗵 No 🗆

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Accelerated filer Smaller reporting company Emerging growth company Large accelerated filer Non-accelerated filer

If an emerging growth company indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes \square No \boxtimes

As of August 1, 2022, the registrant had 25,507,428 shares of Class A common stock, \$0.01 par value per share, and 31,460,103 shares of Class B common stock, \$0.01 par value per share, outstanding.

Introductory Note Regarding Definitions

The registrant, Aris Water Solutions, Inc. ("Aris Inc."), was incorporated on May 26, 2021 as a Delaware corporation. Aris Inc. was formed to serve as the issuer in an initial public offering ("IPO" or the "Offering") of equity, which was completed on October 26, 2021. Concurrent with the completion of the Offering, Aris Inc. became the new parent holding company of Solaris Midstream Holdings, LLC ("Solaris LLC"), a Delaware limited liability company. Except as otherwise indicated or required by the context, all references to the "Company," "we," "our," and "us" or similar terms refer to (i) Solaris LLC and its consolidated subsidiaries before the completion of the Offering and (ii) Aris Inc. and its consolidated subsidiaries as of the completion of the Offering and thereafter.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q (this "Quarterly Report") includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical fact contained in this Quarterly Report, including, without limitation, statements regarding our future results of operations or financial condition, business strategy and plans and objectives of management for future operations, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "anticipate," "guidance," "preliminary," "project," "expect," "continue," "intend," "plan," "believe," "forecast," "future," "potential," "may," "possible," "could" and variations of such words or similar expressions.

You should not rely on forward-looking statements as predictions of future events. We have based the forward-looking statements contained in this Quarterly Report primarily on our current expectations and projections about future events and trends that we believe may affect our business, financial condition and operating results. The outcome of the events described in these forward-looking statements is subject to risks, uncertainties and other factors described in the section titled "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021 (our "2021 Annual Report") and found elsewhere in this Quarterly Report, including, but not limited to, the following:

- the impact of the current conflict between Russia and Ukraine on the global economy, including its impacts on financial markets and the energy industry;
- impacts of cost inflation on our operating margins;
- the impact of current and future laws, rulings and federal and state governmental regulations, including those related
 to hydraulic fracturing, accessing water, handling of produced water, carbon pricing, taxation of emissions, seismic
 activity, drilling and right-of-way access on federal lands, income taxes and various other matters;
- our reliance on a limited number of customers and a particular region for substantially all of our revenues;
- our ability to renew or replace expiring contracts on acceptable terms;
- risks related to acquisitions and organic growth projects, including our ability to realize their expected benefits;
- capacity constraints on regional oil, natural gas and water gathering, processing and pipeline systems that result in a slowdown or delay in drilling and completion activity, and thus a slowdown or delay in the demand for our services;

- our ability to retain key management and employees and to hire and retain skilled labor;
- our health, safety and environmental performance;
- delays or restrictions in obtaining, utilizing or maintaining permits and/or rights-of-way by us or our customers;
- constraints in supply or availability of equipment used in our business;
- · physical, electronic and cybersecurity breaches; and
- the other risks described in our 2021 Annual Report filed with the United States Securities and Exchange Commission ("SEC").

Many of the factors that will determine our future results are beyond the ability of management to control or predict. Should one or more of the risks or uncertainties described in this Quarterly Report or in our 2021 Annual Report occur, or should underlying assumptions prove incorrect, our actual results and plans could differ materially from those expressed in any forward-looking statements. All forward-looking statements, expressed or implied, are expressly qualified in their entirety by this cautionary statement.

Aris Water Solutions, Inc. Notes to Unaudited Condensed Consolidated Financial Statements (unaudited)

1. Organization and Background of Business

Aris Water Solutions, Inc. ("Aris Inc.", the "Company", "we", "our, or "us") is an independent, environmentally-focused company headquartered in Houston, Texas, that, through its controlling interest in Solaris Midstream Holdings, LLC, a Delaware limited liability company ("Solaris LLC"), provides sustainability-enhancing services to oil and natural gas operators. We strive to build long-term value through the development, construction and operation of integrated produced water handling and recycling infrastructure that provides high-capacity, comprehensive produced water management, recycling and supply solutions for operators in the Permian Basin.

We were incorporated on May 26, 2021 as a Delaware corporation and were formed to serve as the issuer in an initial public offering of equity (the "IPO" or "Offering") that occurred on October 26, 2021.

Concurrent with the completion of the IPO, we became the new parent holding company of Solaris LLC. As the sole managing member of Solaris LLC, we operate and control the business and affairs of Solaris LLC, and through Solaris LLC and its subsidiaries, conduct our business. We consolidate the financial results of Solaris LLC and report noncontrolling interest related to the portion of Solaris LLC units not owned by us.

In these condensed consolidated financial statements, periods prior to IPO closing reflect the financial statements of Solaris LLC and its subsidiaries. Periods subsequent to IPO closing on October 26, 2021 reflect the financial statements of the consolidated Company including Aris Inc., Solaris LLC and Solaris LLC's subsidiaries.

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

All dollar amounts, except per share amounts, in the financial statements and tables in the notes are stated in thousands of dollars unless otherwise indicated.

Interim Financial Statements

Our accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). These financial statements have not been audited by our independent registered public accounting firm.

These financial statements include the adjustments and accruals, all of which are of a normal recurring nature, necessary for a fair presentation of the results for the interim periods. These interim results are not necessarily indicative of results for a full year. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2021.

Consolidation

We have determined that the members with equity at risk in Solaris LLC lack the authority, through voting rights or similar rights, to direct the activities that most significantly impact Solaris LLC's economic performance; therefore, Solaris LLC is considered a variable interest entity ("VIE"). As the managing member of Solaris LLC, we operate and control the business and affairs of Solaris LLC as well as have the obligation

to absorb losses or the right to receive benefits that could be potentially significant to us. Therefore, we are considered the primary beneficiary and consolidate Solaris LLC.

Noncontrolling Interests

As of June 30, 2022, we own approximately 41% of Solaris LLC. Our consolidated financial statements include noncontrolling interests representing the percentage of Solaris LLC units not held by us.

Use of Estimates

Management has made certain estimates and assumptions that affect reported amounts in these financial statements and disclosures of contingencies. These critical estimates include, among others, determining the fair value of assets acquired and liabilities assumed in acquisitions or disposed through sale, determining the fair value and related impairment of assets held for sale, determining the fair value of assets acquired and liabilities assumed in nonmonetary exchanges, determining the fair value of performance-based restricted stock units ("PSUs"), useful lives of property, plant and equipment and amortizable intangible assets, the fair value of asset retirement obligations ("ARO"), accruals for environmental matters, the income tax provision, valuation allowances for deferred tax assets, and the liability associated with our Tax Receivable Agreement (the "TRA liability"). Management evaluates estimates and assumptions on an ongoing basis using historical experience and other factors, including current economic and industry conditions. Actual results could differ from management's estimates as additional information or actual results become available in the future, and those differences could be material.

Significant Accounting Policies

See Note 2. Significant Accounting Policies to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2021 for the discussion of our significant accounting policies. Other than the updates noted below in *Recently Adopted Accounting Pronouncements*, there were no significant updates or revisions to our accounting policies during the six months ended June 30, 2022.

Fair Value Information

The fair value of our 7.625% Senior Sustainability-Linked Notes (the "Notes"), which are fixed-rate debt, is estimated based on the published market prices for the same or similar issues. Management has designated this measurement as a Level 2 fair value measurement. Fair value information regarding our debt is as follows:

(in thousands)		June 30, 2022				December 31, 2021						
		Carrying		Fair Carrying			Fair Carrying				Fair	
		Amount		Value		Amount		Value				
Senior Sustainability-Linked Notes	\$	400,000	\$	378,816	\$	400,000	\$	424,000				

The carrying values of our financial instruments, consisting of cash, accounts receivable, and accounts payable, approximate their fair values due to the short maturity of such instruments.

Intangible Assets

Intangible assets are net of accumulated amortization of \$78.5 million and \$60.1 million at June 30, 2022 and December 31, 2021, respectively.

Related Parties

In 2020, we and ConocoPhillips, one of our principal owners, entered into a 13-year water gathering and handling agreement, pursuant to which ConocoPhillips agreed to dedicate all the produced water generated

from its current and future acreage in a defined area of mutual interest in New Mexico and Texas. As of June 30, 2022 and December 31, 2021, we had accounts receivable from ConocoPhillips of \$21.7 million and \$20.2 million, respectively, that were recorded in accounts receivable from affiliate. As of June 30, 2022 and December 31, 2021, we had payables to ConocoPhillips of \$2.1 million and \$1.5 million, respectively, that were recorded in payables to affiliate. Revenues and expenses related to ConocoPhillips were as follows:

(in thousands)	Three Months Ended June 30,			Six Months Ended June 30,		
	2022		2021	2022		2021
Revenues from ConocoPhillips	\$ 26,035	\$	29,291	\$ 50,260	\$	51,886
Operating Expense Reimbursed to ConocoPhillips	375		(73)	760		728

Operating expenses reimbursed to ConocoPhillips are related to ConocoPhillips' costs for operating certain assets on our behalf between closing and the transfer of the acquired assets and other ongoing operating expenses.

Recently Adopted Accounting Pronouncements

<u>Leases.</u> Effective January 1, 2022, we adopted Accounting Standards Update ("ASU") No. 2016-02: *Leases* and its subsequent amendments (collectively, "ASC Topic 842"). ASC Topic 842 supersedes prior accounting guidance for leases and requires, among other things, lessees to recognize substantially all right-of-use ("ROU") assets and lease liabilities on the balance sheet. Certain practical expedients are allowed for leases with terms of 12 months or less. ASC Topic 842 also requires disclosures designed to give financial statement users information on the amount, timing, and uncertainty of cash flows arising from leases. Our adoption and implementation of ASC Topic 842 as of January 1, 2022 resulted in the recognition of right-of-use assets of \$7.9 million and lease liabilities of \$7.3 million.

We made policy elections not to capitalize short-term leases for all asset classes and not to separate non-lease components from lease components for all asset classes, except for real estate leases. We also did not elect the package of practical expedients that allowed for certain considerations under the original "Leases (Topic 840)" accounting standard to be carried forward upon adoption of ASU 2016-02.

ASU No. 2018-11, "Targeted Improvements," provides a transition election not to restate comparative periods for the effects of applying the new lease standard. This transition election permits entities to change the date of initial application to the beginning of the year of adoption and to recognize the effects of applying the new standard as a cumulative-effect adjustment to the opening balance of retained earnings. We elected this transition approach; however, the cumulative impact of adoption in the opening balance of retained earnings as of January 1, 2022 was zero.

Our accounting policy for leases is as follows:

We determine whether an arrangement contains a lease based on the conveyed rights and obligations at the inception date. If an agreement contains an operating or financing lease, at the commencement date, we record a right-of-use asset and a corresponding lease liability based on the present value of the minimum lease payments.

As most of our leases do not provide an implicit borrowing rate, to determine the present value of lease payments, we use our hypothetical secured borrowing rate based on information available at lease commencement. Further, we make a number of estimates and judgments regarding the lease term and lease payments.

Lease Term — Leases with an initial term of 12 months or less are not recorded on the balance sheet and we recognize lease expense for these leases on a straight-line basis over the lease term. Most leases include one or more options to renew, with renewal terms that can extend the lease term from one month to one year

or more. Additionally, some of our leases include an option for early termination. We include renewal periods and exclude termination periods from our lease term if, at commencement, it is reasonably likely that we will exercise the option.

Lease Payments — Certain of our lease agreements include rental payments that are adjusted periodically for inflation or passage of time. These step payments are included within our present value calculation as they are known adjustments at commencement. Some of our lease agreements include variable payments that are excluded from our present value calculation.

Additionally, we have lease agreements that include lease and non-lease components, such as equipment maintenance, which are generally accounted for as a single lease component. For these leases, lease payments include all fixed payments stated within the contract. For real estate lease agreements, we account for lease and non-lease components separately. Our lease agreements do not contain any material residual value guarantees that would impact our lease payments.

See Note 7. Leases.

<u>Financial Instruments – Credit Losses.</u> Effective January 1, 2022, we adopted ASU 2016-13, *Financial Instruments – Credit Losses* and its subsequent amendments (collectively, "ASC Topic 326"). ASC Topic 326 requires the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. The adoption of ASC Topic 326 did not have a material impact on our financial statements.

3. Additional Financial Statement Information

Balance Sheet

Other balance sheet information is as follows:

(in thousands)	•	June 30, 2022	Dec	ember 31, 2021
Other Receivables

Less: Amounts Capitalized		(1,089)		(860)		(1,726)		(1,216)
Interest Expense, Net	\$	7,315	\$	7,324	\$	15,100	\$	9,975

⁽¹⁾ Abandoned Projects expense is primarily related to expirations of legacy permits and rights-of-way for projects that were not ultimately constructed.

4. Property, Plant and Equipment

Property, plant and equipment ("PP&E") is stated at cost, less accumulated depreciation. Depreciation is calculated on a straight-line basis over the estimated useful service life of the asset.

PP&E consists of the following:

(in thousands)	June 30, 2022	De	December 31, 2021		
Wells, Facilities, Water Ponds, and Related Equipment	\$ 310,977	\$	329,935		
Pipelines	330,981		327,140		
Land	2,063		2,063		
Vehicles, Equipment, Computers and Office Furniture	18,148		17,359		
Assets Subject to Depreciation	662,169		676,497		
Projects and Construction in Progress	80,852		24,259		
Total Property, Plant and Equipment	743,021		700,756		
Accumulated Depreciation	(74,488)		(67,749)		
Total Property, Plant and Equipment, Net	\$ 668,533	\$	633,007		

Asset Exchanges

During the six months ended June 30, 2022, we completed multiple nonmonetary transactions. The transactions included exchanges of wells, facilities, permits and other assets. The total net book value of the divested assets and liabilities was \$3.8 million. The acquired assets were recorded at a total fair value of \$3.2 million, which resulted in a total pre-tax loss of \$0.6 million

Assets Held for Sale

During the first quarter of 2022, management committed to a plan to sell certain of our assets located in the Midland Basin and determined that these assets met all the criteria for classification as assets held for sale. We anticipate these assets will be sold in the second half of 2022. These assets have been re-measured at their fair values less costs to sell, which resulted in the recognition of pre-tax impairment expense of \$15.6 million during the first quarter of 2022. We estimated the fair value of the assets using indicative bids, which were representative of a Level 2 fair value measurement. The assets are included in assets held for sale in the condensed consolidated balance sheet at June 30, 2022, and we have ceased recording depreciation on the assets.

Abandoned Assets

In June 2022, management determined that two previously acquired saltwater disposal wells ("SWD wells") were no longer economically beneficial to the operations of the Company due to required workover costs and determined that the SWD wells should be shut-in and taken out of service. Accordingly, we have removed the cost and the associated accumulated depreciation and recognized a charge of \$4.2 million for the remaining book value of the SWD wells. The charge has been reflected in abandoned well costs in the condensed consolidated statements of operations for the three and six months ended June 30, 2022.

In late second quarter 2022, management removed the cost of a well that was under construction in Texas. The well had encountered technical difficulties during the drilling phase and progress on the well was stopped. Management's evaluation of the well determined that abandoning the asset was the most prudent course of action. Accordingly, we have removed the cost of the asset and recognized a charge of \$1.6 million, which is reflected in abandoned well costs in the condensed consolidated statements of operations for the three and six months ended June 30, 2022.

5. Tax Receivable Agreement Liability

Our tax receivable agreement ("TRA") with the legacy owners of Solaris LLC units (each such person, a "TRA Holder," and together, the "TRA Holders") generally provides for the payment by us to each TRA Holder of 85% of the net cash savings, if any, in U.S. federal, state and local income tax and franchise tax that we actually realize or, are deemed to realize in certain circumstances, in periods after the IPO as a result of certain increases in tax basis that occur as a result of our acquisition or Solaris LLC's redemption, respectively, of all or a portion of such TRA Holder's Solaris LLC units in connection with the IPO or pursuant to the exercise of a redemption right or call right. We retain the remaining 15% of these cash savings. The future benefit of these cash savings is included, alongside other tax attributes, in our total deferred tax asset balance at June 30, 2022

The TRA liability totaled \$78.1 million at June 30, 2022. The liability increased \$2.6 million during the six months ended June 30, 2022 due to the redemption of Class B shares to Class A shares. See Note 9. Stockholders'/Members' Equity.

As of December 31, 2021, we estimated that if all the remaining Solaris LLC units were redeemed for shares of Class A common stock, the TRA liability would be approximately \$221.8 million. If we experience a change of control (as defined under the TRA, which includes certain mergers, asset sales and other forms of business combinations and change of control events) or the TRA terminates early (at our election or as a

result of our breach), we could be required to make an immediate lump-sum payment under the terms of the TRA. As of December 31, 2021, we estimated the liability associated with this lump-sum payment (or "early termination payment") would be approximately \$193.4 million, discounted. These amounts can be significantly impacted by the closing price of our Class A shares on the applicable redemption date. We currently do not anticipate experiencing a change of control or an early termination of the TRA.

6. Long-Term Debt

Our long-term debt consists of the following:

(in thousands)	June 30, 2022	December 31, 2021		
7.625% Senior Sustainability-Linked Notes	\$ 400,000	\$	400,000	
Revolving Credit Facility	_		_	
Total Long-Term Debt	400,000		400,000	
Less: Unamortized Debt Issuance Costs	(7,014)		(7,949)	
Total Long-Term Debt, Net of Debt Issuance Costs	\$ 392,986	\$	392,051	

Senior Sustainability-Linked Notes

Our Notes are due April 1, 2026. The Notes are unsecured and effectively subordinated to the Credit Facility to the extent of the value of the collateral securing the Credit Facility (see below). The Notes are guaranteed on a senior unsecured basis by our wholly-owned subsidiaries. Interest on the Notes is payable on April 1 and October 1 of each year. We may redeem all or part of the Notes at any time on or after April 1, 2023 at redemption prices ranging from 103.8125% on or after April 1, 2023 to 100% on or after April 1, 2025. In addition, on or before April 1, 2023, we may redeem up to 40% of the aggregate principal amount of the Notes with the net cash proceeds of certain equity offerings, if certain conditions are met, at a redemption price of 107.625% of the principal amount of the Notes, plus accrued interest. At any time prior to April 1, 2023, we may also redeem the Notes, in whole or in part, at a price equal to 100% of the principal amount of the Notes plus a "make-whole" premium. If we undergo a change of control, we may be required to repurchase all or a portion of the Notes at a price equal to 101% of the principal amount of the Notes, plus accrued interest.

Certain of these redemption prices are subject to increase if we fail to satisfy the Sustainability Performance Target (as defined in the indenture governing the Notes and referred to herein as "SPT") and provide notice of such satisfaction to the trustee. From and including the interest period ending on October 1, 2023, the interest rate will be increased by 25 basis points to 7.875% per annum unless we notify the trustee for the Notes at least 30 days prior to April 1, 2023 that, for the year ending December 31, 2022: (i) the SPT has been satisfied and (ii) the satisfaction of the SPT has been confirmed in accordance with customary procedures.

Credit Facility

Our Restated Credit Agreement provides for, among other things, (i) commitments of \$200.0 million, (ii) a maturity date of April 1, 2025, (iii) loans made under the Credit Facility and unused commitment fees to be determined based on a leverage ratio ranging from 3.00:1.00 to 4.50:1.00, (iv) a \$75.0 million incremental revolving facility, which will be on the same terms as under the Credit Facility, (v) a leverage ratio covenant which comprises a maximum total funded debt to EBITDA ratio, net of \$40.0 million of unrestricted cash and cash equivalents if the facility is drawn, and net of all unrestricted cash and cash equivalents if the facility is undrawn, (vi) a leverage ratio covenant test level which is currently 4.50 to 1.00 and (vii) a secured leverage covenant of 2.50 to 1.00.

As of June 30, 2022 and December 31, 2021, we had no outstanding borrowings under the Credit Facility, \$0.15 million in letters of credit outstanding and \$200.0 million in revolving commitments available.

The Credit Facility is secured by all the real and material personal property owned by Solaris LLC or any of its subsidiaries, other than certain excluded assets. At June 30, 2022, we were in compliance with all covenants contained in the Credit Facility.

7. Leases

In the normal course of business, we enter into operating lease agreements to support our operations. Our leased assets include right-of-way easements for our wells and facilities, office space and other assets. We currently have no finance leases.

Balance Sheet Information

The following table provides supplemental consolidated balance sheet information related to leases:

(in thousands)	Classification	Jun	e 30, 2022
Assets			
Right-of-Use Assets	Consolidated Balance Sheet	\$	7,067

(in thousands)	
2022	\$ 824
2023	638
2024	622
2025	514 438
2026	438
Thereafter	816
Total	\$ 3,852

8. Income Taxes

Our predecessor, Solaris LLC, is a Delaware limited liability company treated as a partnership for federal income tax purposes and, therefore, has not been subject to U.S. federal income tax at an entity level. As a result, the consolidated net (loss) income in our historical financial statements does not reflect the tax (benefit) expense we would have incurred if we were subject to U.S. federal income tax at an entity level during periods prior to the IPO. Solaris LLC continues to be treated as a partnership for U.S. federal income tax purposes and, as such, is not subject to U.S. federal income tax. Instead, taxable income is allocated to members, including Aris Inc., and except for Texas franchise tax, any taxable income of Solaris LLC is reported in the respective tax returns of its members.

Income Tax Expense (Benefit)

We recorded income tax expense (benefit) of \$0.5 million and \$(0.4) million for the three and six months ended June 30, 2022, substantially all of which was deferred.

Effective Tax Rate

We record our income tax (benefit) expense using an estimated annual effective tax rate ("ETR") and recognize specific events discretely as they occur. The ETR for the six months ended June 30, 2022 was 12%. The difference between the federal statutory rate and our estimated annual ETR is due primarily to the impact of the noncontrolling interest.

Deferred Tax Assets

We regularly evaluate the realizable tax benefits of deferred tax assets and record a valuation allowance, if required, based on an estimate of the amount of deferred tax assets that we believe does not meet the more-likely-than-not criteria of being realized. The balance of our deferred income tax assets, net increased \$2.5 million during the six months ended June 30, 2022.

Tax Examinations

Solaris LLC files income tax returns in the U.S. federal jurisdiction and various states. There are currently no federal or state income tax examinations underway for these jurisdictions. We are no longer subject to tax examinations for tax years prior to 2018 for federal income taxes and prior to 2017 for state income taxes.

9. Stockholders'/Members' Equity

Redemptions

During the six months ended June 30, 2022, Solaris LLC units, together with an equal number of shares of our Class B common stock, were redeemed for shares of our Class A common stock on a one-for-one basis as follows:

- 148,087 shares were redeemed on February 28, 2022; and
- 107,914 shares were redeemed on June 1, 2022.

Dividends and Distributions

On February 25, 2022 and May 6, 2022, our Board of Directors declared quarterly dividends of \$0.09 per share for the first quarter and second quarter of 2022, respectively, on our Class A common stock. In conjunction with the dividend payments, a distribution of \$0.09 per unit was paid to unit holders of Solaris LLC for both the first quarter and second quarter of 2022.

On August 3, 2022, our Board of Directors declared a quarterly dividend of \$0.09 per share for the third quarter of 2022 on our Class A common stock. The dividend will be paid on August 30, 2022, to holders of record of our Class A common stock as of the close of business on August 17, 2022. In conjunction with the dividend payment, a distribution of \$0.09 per unit will be paid to unit holders of Solaris LLC subject to the same payment and record dates.

10. Commitments and Contingencies

In the normal course of business, we are subject to various claims, legal actions, contract negotiations and disputes. We provide for losses, if any, in the period in which they become probable and can be reasonably estimated. In management's opinion, there are currently no such matters outstanding that would have a material effect on the accompanying financial statements.

Other Commitments

In the normal course of business, we enter into short-term purchase obligations for products and services, primarily related to purchases of pipe, pumps and other components. As of June 30, 2022, we have purchase obligations and commitments of approximately \$36.3 million due in the next twelve months.

We are a party to various surface use and compensation agreements by which we have committed to make minimum royalty payments in exchange for rights to access and use the land for purposes that are generally limited to conducting our water operations. These agreements do not meet the definition of a lease under ASC Topic 842. Minimum royalty payments associated with these contracts are as follows: \$3.2 million for the remainder of 2022, \$9.0 million for 2023, \$9.8 million for 2024, \$10.6 million for 2025, \$11.3 million for 2026, and \$4.5 million thereafter.

We are party to a fixed price power purchase contract to manage the volatility of the price of power needed for ongoing operations. We have elected the normal purchase and normal sale accounting treatment for this contract and therefore record it at cost. The contract has a term that ends in May 2025 and the remaining minimum commitment under the contract is \$7.9 million as of June 30, 2022.

Environmental

We are also subject to various federal, state and local laws and regulations relating to the protection of the environment. For the three and six months ended June 30, 2022, we recognized \$0.3 million and \$1.0 million of expense, respectively, related to environmental matters that were recorded in Direct Operating Cost. For the three and six months ended June 30, 2021, the expense was de minimis. We also have insurance proceeds receivable of \$2.1 million at June 30, 2022 that we believe are probable to collect and are reasonably estimable. Although we believe these estimates are reasonable, actual results could differ from these estimates.

11. Earnings Per Share

Net Income (Loss) Per Share

Basic and diluted net income (loss) per share attributable to our Class A common stock is computed by dividing net income (loss) attributable to Aris Water Solutions, Inc. for periods subsequent to the IPO by the weighted average number of shares of Class A common stock outstanding for the same period, including shares of restricted stock and restricted stock units (collectively "RSUs"), which receive nonforfeitable dividends. Shares issued during the period are weighted for the portion of the period in which the shares were outstanding.

Prior to the IPO, Solaris LLC's capital structure included Class A, Class B, Class C, and Class D units. We determined that the presentation of net income (loss) per unit for the period prior to the IPO would not be meaningful due to the significant nature of the corporate reorganization transactions on the capital structure at IPO date. Therefore, net income (loss) per unit information has not been presented for periods prior to the IPO.

The following table sets forth the computation of basic and diluted net income (loss) per share attributable to our Class A common stock:

	Th	ree Months Ended June 30,	Six	Months Ended June 30,
(in thousands, except for share and per share amounts)		2022		2022
Net Income (Loss) Attributable to Stockholders' Equity	\$	4,039	\$	(2,578)
Less: Net Income (Loss) Attributable to Noncontrolling Interest		2,645		(1,750)
Net Income (Loss) Attributable to Aris Water Solutions, Inc.		1,394		(828)
Participating Basic Net Loss (1)		(179)		(360)
Basic Net Income (Loss) Attributable to Aris Water Solutions, Inc.	\$	1,215	\$	(1,188)
Reallocation of Participating Net Income (Loss)		-		_
Diluted Net Income (Loss) Attributable to Aris Water Solutions, Inc.	\$	1,215	\$	(1,188)
Basic Weighted Average Outstanding Shares		21,984,313		21,918,639
Dilutive Performance-Based Stock Units		116,793		-
Dilutive Weighted Average Outstanding Shares		22,101,106		21,918,639
Basic Net Income (Loss) Per Share of Class A Common Stock	\$	0.06	\$	(0.05)
Diluted Net Income (Loss) Per Share of Class A Common Stock	\$	0.05	\$	(0.05)

⁽¹⁾ Unvested shares of restricted stock and RSUs represent participating securities because they participate in nonforfeitable dividends or distributions with the common equity holders of the Company. Participating earnings represent the distributed and undistributed earnings of the Company attributable to participating securities. Unvested RSUs do not participate in undistributed net losses as they are not contractually obligated to do so.

Shares of Class B common stock are considered potentially dilutive shares of Class A common stock because they may be redeemed for shares of Class A common stock on a one-for-one basis. A total of 31,532,441 shares and 31,597,946 shares of Class B common stock outstanding for the three and six months ended June 30, 2022, respectively, were determined to be antidilutive and were excluded from the computation of diluted earnings per share of Class A common stock. In addition, all PSUs were determined to be antidilutive for the six months ended June 30, 2022, and have been excluded from the computation of diluted earnings per share for that period.

12. Stock-Based Compensation

Our 2021 Equity Incentive Plan (the "2021 Plan") allows for the grant of, among other types of awards, stock options; RSUs; and PSUs.

Restricted Stock and Restricted Stock Units

RSU activity during the period was as follows:

		ighted-Average rant Date Fair
	RSUs	Value
Outstanding at December 31, 2021	1,439,029	\$ 12.68
Granted	608,819	14.81
Forfeited	(53,102)	13.28
Vested	(515)	14.61
Outstanding at June 30, 2022	1,994,231	\$ 13.55

The RSUs granted during the six months ended June 30, 2022 generally vest in the following installments: (i) one-third at the first anniversary of the award date, (ii) one-third at the second anniversary of the award date, and (iii) one-third at the third anniversary of the award date. As of June 30, 2022, approximately \$20.7 million of compensation cost related to unvested shares of restricted stock and RSUs remained to be recognized. The cost is expected to be recognized over a weighted-average period of 2.2 years.

Performance-Based Restricted Stock Units

During the six months ended June 30, 2022, we granted 167,228 PSUs, with a weighted average grant date fair value of \$25.36, to management under the 2021 Plan. The performance criteria for the PSUs are split as follows:

- Relative PSUs: 50% of the PSUs are based on total shareholder return relative to the total shareholder return of a
 predetermined group of peer companies. This relative total shareholder return is calculated at the end of the
 performance periods stipulated in the PSU agreement.
- Absolute PSUs: 50% of the PSUs have a performance criteria of absolute total shareholder return calculated at the end of the performance period stipulated in the PSU agreement.

The vesting and payout of the PSUs occur when the related service condition is completed, which is generally three years after the grant date regardless of the duration of the stipulated performance period. The PSUs can be paid out in either Class A common stock or cash, at our election. As of June 30, 2022, approximately \$3.7 million of compensation cost related to unvested PSUs remained to be recognized. The cost is expected to be recognized over a weighted-average period of 2.5 years.

The grant date fair value was determined using the Monte Carlo simulation method and is expensed ratably over the service period. Expected volatilities used in the fair value simulation were estimated using historical periods consistent with the remaining performance periods. The risk-free rate was based on the U.S. Treasury rate for a term commensurate with the expected life of the grant. We used the following assumptions to estimate the fair value of PSUs granted during the six months ended June 30, 2022:

	Assumptions
Risk-free Interest Rate	1.44%
Volatility Range	35.95% - 154.23%

PSU activity during the period was as follows:

		eighted-Average Grant Date Fair
	PSUs	Value
Outstanding at December 31, 2021	-	\$ -
Granted	167,228	25.36
Forfeited	(2,887)	25.36
Outstanding at June 30, 2022	164,341	\$ 25.36

13. Subsequent Event

On August 1, 2022, a wholly-owned subsidiary of Solaris LLC acquired certain saltwater gathering and disposal facilities, disposal wells and other related assets and related rights pursuant to an asset purchase agreement dated as of August 1, 2022 among such subsidiary, Aris Inc. and the seller of such assets. In connection with the closing of this acquisition and as consideration for the assets, Aris Inc. issued to the seller 3,365,907 shares of Aris Inc.'s Class A common stock and included a small, volumetric-based contingent consideration. Contemporaneously with the issuance of such shares of Class A common stock, Solaris LLC issued 3,365,907 Solaris LLC units to Aris Inc. After giving effect to the issuance of such Solaris LLC units to Aris Inc., as of August 1, 2022, Aris Inc. owned approximately 45% of Solaris LLC.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion of our historical performance, financial condition and prospects in conjunction with our unaudited condensed consolidated financial statements, and notes thereto, as of and for the three and six months ended June 30, 2022, included elsewhere in this report, as well as our Annual Report on Form 10-K for the year ended December 31, 2021, which includes disclosures regarding our critical accounting policies as part of "Management's Discussion and Analysis of Financial Condition and Results of Operations."

The information provided below supplements, but does not form part of, our historical financial statements. This discussion includes forward-looking statements that are based on the views and beliefs of our management, as well as assumptions and estimates made by our management. Actual results could differ materially from such forward-looking statements because of various risk factors, including those that may not be in the control of management. See *Cautionary Note Regarding Forward-Looking Statements*.

Our Predecessor and Aris Inc.

Aris Inc. was incorporated on May 26, 2021 and does not have historical financial operating results prior to the closing date of its IPO. For purposes of this Quarterly Report, our accounting predecessor is Solaris LLC. The financial data discussed below reflect the historical results of operations and financial position of Solaris LLC, our predecessor for accounting purposes, prior to the date of our IPO closing on October 26, 2021. See Item 1. Financial Statements — Note 1. Organization and Background.

Business Overview

We are a leading, growth-oriented environmental infrastructure and solutions company that directly helps our customers reduce their water and carbon footprints. We deliver full-cycle water handling and recycling solutions that increase the sustainability of energy company operations. Our integrated pipelines and related infrastructure create long-term value by delivering high-capacity, comprehensive produced water management, recycling and supply solutions to operators in the core areas of the Permian Basin.

Second Quarter 2022 Results

Significant financial and operating highlights for the three months ended June 30, 2022 include:

- Total water volumes handled or sold of 1,242 kbwpd, an increase of 34% as compared with the second quarter of 2021
- Recycled produced water volumes sold of 297 kbwpd, an increase of 186% as compared with the second quarter of 2021
- Total revenue of \$76.4 million, an increase of 35% as compared with the second guarter of 2021
- Abandoned well costs of \$5.4 million as compared with none for the second quarter of 2021
- Net income of \$4.0 million, a decrease of 11% as compared with the second quarter of 2021
- Adjusted EBITDA (non-GAAP financial measure) of \$37.2 million, an increase of 21% as compared with the second quarter of 2021
- Dividend paid on our Class A common stock for the second quarter of 2022 of \$0.09 per share, along with a
 distribution of \$0.09 per unit paid to unit holders of Solaris LLC

Announced new long-term full-cycle water management agreement with Chevron U.S.A. Inc. ("Chevron")

Chevron Alliance

On May 9, 2022, we announced a new long-term full-cycle water management agreement with Chevron in the Permian Basin. Under the arrangement, we will provide produced water handling and recycling services in a portion of Chevron's core position in the Delaware Basin, including acreage in Eddy and Lea Counties, New Mexico and Culberson and Reeves Counties, Texas.

Subsequent Event - Asset Purchase

On August 1, 2022, a wholly-owned subsidiary of Solaris LLC acquired certain saltwater gathering and disposal facilities, disposal wells and other related assets and related rights pursuant to an asset purchase agreement dated as of August 1, 2022 among such subsidiary, Aris Inc. and the seller of such assets. In connection with the closing of this acquisition and as consideration for the assets, Aris Inc. issued to the seller 3,365,907 shares of Aris Inc.'s Class A common stock and included a small, volumetric-based contingent consideration. Contemporaneously with the issuance of such shares of Class A common stock, Solaris LLC issued 3,365,907 Solaris LLC units to Aris Inc. After giving effect to the issuance of such Solaris LLC units to Aris Inc., as of August 1, 2022, Aris Inc. owned approximately 45% of Solaris LLC.

For additional information regarding our non-GAAP financial measures, see Non-GAAP Financial Measures below.

General Trends and Outlook

Market Dynamics

The current conflict between Russia and Ukraine is having significant global economic implications and may result in higher inflation, weaker real GDP growth and disruption to global financial markets. The extent of these impacts will depend on the length of the conflict and whether the conflict spreads beyond Ukraine's borders. In addition, there are particular impacts on commodity prices due to supply disruptions which are resulting in significantly higher West Texas Intermediate ("WTI") crude oil prices. The continuing impact on commodity prices will also depend on the length of the conflict as well as the Organization of Petroleum Exporting Countries future responses to supply disruptions and higher prices.

As the U.S. economy began recovering from the COVID-19 pandemic in the latter half of 2021, domestic crude oil prices began to increase. During the three months ended June 30, 2022, the average WTI spot price was \$108.83 as compared with \$66.19 for the three months ended June 30, 2021. During the six months ended June 30, 2022, the average WTI spot price was \$102.01 as compared with \$62.21 for the six months ended June 30, 2021. With the increase in WTI spot prices, our customers' investment in new production activities has resumed and we believe that the activity levels of our customers will continue to increase

We believe there are several industry trends that continue to provide meaningful support for future growth. Our key customers' capital allocation to the Permian Basin remains consistent and significant, including on acreage where the water sourcing and production is dedicated to us. Additionally, operators continue to average longer horizontal lateral lengths which corresponds to increased water sourcing and produced water handling volumes.

Many industry trends such as simultaneous multi-well operations and reuse applications of produced water, particularly in the areas of the Permian Basin where we operate, are improving efficiencies and returns and provide us with significant opportunities for both our Produced Water Handling and Water Solutions businesses.

Cost Inflation

During 2021, the U.S. began experiencing increased wage and price inflation, as evidenced by increases in the Consumer Price Index ("CPI"), and inflation is expected to continue through 2022. Through July 2022, the Federal Reserve has approved four interest rate hikes that total a 2.25 percentage point increase, which are the first increases since December 2018. The Federal Reserve has indicated additional rate increases may be approved during the remainder of the year. The members of the Federal Reserve also expressed reduced expectations for economic growth this year and raised their outlook for inflation. The degree of inflation, and length of time it continues, will be impacted by any further steps the U.S. Federal Reserve Bank takes to combat inflationary pressures, such as by continuing to adjust interest rates.

During the second quarter of 2022, our revenue growth was offset by supply chain constraints leading to higher than anticipated cost inflation. Our long-term, fee-based produced water handling contracts are generally subject to annual CPI based adjustments. However, many of our contractual CPI based adjustments are capped at a maximum annual increase and, therefore, our costs may increase more rapidly than the fees that we charge to customers pursuant to our contracts with them. If inflation in the CPI were to increase significantly higher than our contractually allowed fee increases, we could experience negative impacts to our operating margins.

Induced Seismicity

In New Mexico, we operate one well which is partially curtailed due to compliance with the New Mexico Oil Conservation Division's Seismicity Response Protocol in the Hat Mesa Seismic Response Area ("SRA"). In Texas, we operate two deep injection wells and hold one deep injection well permit within the Gardendale SRA where the Texas Railroad Commission ("TRC") suspended all active permits to inject oil and gas waste into deep strata. We requested a hearing to continue to operate our wells and the TRC granted approval to recomplete our deep wells to shallow injection intervals. We also operate within the Stanton SRA and participate in the Operator-Led Response Plan ("OLRP"). The OLRP was accepted on May 15, 2022, and resulted in no curtailment of our wells in the Stanton SRA.

Due to the integrated nature of our pipeline network and our system-wide redundancy, we have been able to comply with regulator responses to seismic activity, while continuing to provide service to our customers without significant disruption in our operations. In addition, our compliance with state regulator seismic response actions has not resulted in any material volumetric, revenue or cash flow decreases.

Asset Abandonment

In the normal course of business, we evaluate the performance of our saltwater disposal assets. As a result of an evaluation, we may conclude that, due to performance or other issues, a SWD well should be shut-in and taken out of service. When an abandonment occurs, we recognize a charge equal to the remaining net book value of the well. During July 2022, we began evaluating the performance of a SWD well that was temporarily shut-in. If we determine that the well and/or its associated assets should be abandoned, we would recognize a charge of up to \$12 million during third quarter 2022.

Factors Affecting the Comparability of our Results of Operations

Temporary Power Costs

In the past, we constructed assets in advance of permanent grid power infrastructure availability in order to secure long-term produced water handling contracts. As a result, we rented temporary power generation equipment that would not have been necessary if grid power connections had been available. We estimate temporary power costs by taking temporary power and rental expenses incurred during the period and subtracting estimated expenses that would have been incurred during such period had permanent grid power been available. Power infrastructure and permanent power availability rapidly expanded in the Permian Basin

in 2020 and the first half of 2021, and, accordingly, we were able to make significant progress in reducing these expenses over that period. By the end of June 2021, all our significant facilities were being supported by permanent power. Beginning in the third quarter of 2021, we were no longer adjusting for temporary power costs.

We remove temporary power costs when calculating Adjusted Operating Margin to accurately assess long-term profitability and cash flow on a basis consistent with our long-term projections and current operating cost profile.

Results of Operations

Results of operations were as follows for the periods indicated:

(in thousands)	Three Months Ended June 30,						
		2022		2021		2022 vs. 20)21

Operating Metrics

The amount of revenue we generate primarily depends on the volumes of water which we handle for, sell to, or transfer for our customers. Volumes were as follows for the three-month periods:

	Three Months Ended June 30,						
		2022		2021		2022 vs.	2021
Thousand barrels water per day							
Produced Water Handling Volumes		841		719		122	17%
Water Solutions Volumes:							
Recycled Produced Water Volumes Sold		297		104		193	186%
Groundwater Volumes Sold		104		69		35	51%
Groundwater Volumes Transferred		_		32		(32)	(100)%
Total Water Solutions Volumes		401		205		196	96%
Total Volumes		1,242		924		318	34%
Per Barrel Operating Metrics (1)							
Produced Water Handling Revenue/Barrel	\$	0.77	\$	0.70	\$	0.07	10%
Water Solutions Revenue/Barrel	\$	0.48	\$	0.56	\$	(80.0)	(14)%
Revenue/Barrel of Total Volumes	\$	0.67	\$	0.67	\$	` -	0%
Direct Operating Costs/Barrel	\$	0.27	\$	0.27	\$	-	0%
Adjusted Operating Margin/Barrel (2)	\$	0.41	\$	0.42	\$	(0.01)	(2)%

⁽¹⁾ Per barrel operating metrics are calculated independently. Therefore, the sum of individual amounts may not equal the total presented.

⁽²⁾ See Non-GAAP Financial Measures below.

Volumes were as follows for the six-month periods:

Six Months Ended

	Jı	<u>ıne 30</u>			
	2022		2021	2022 vs.	2021
Thousand barrels water per day					
Produced Water Handling Volumes	822		684	138	20%
Water Solutions Volumes:					
Recycled Produced Water Volumes Sold	285		87	198	228%
Groundwater Volumes Sold	85		51	34	67%
Groundwater Volumes Transferred	12		43	(31)	(72)%
Total Water Solutions Volumes	382		181	201	111%
Total Volumes	1,204		865	339	39%
Per Barrel Operating Metrics ⁽¹⁾					
Produced Water Handling Revenue/Barrel	\$ 0.77	\$	0.69	\$ 0.08	12%
Water Solutions Revenue/Barrel	\$ 0.47	\$	0.52	\$ (0.05)	(10)%
Revenue/Barrel of Total Volumes	\$ 0.68	\$	0.66	\$ 0.02	3%
Direct Operating Costs/Barrel	\$ 0.26	\$	0.28	\$ (0.02)	(7)%
Adjusted Operating Margin/Barrel (2)	\$ 0.41	\$	0.41	\$ -	0%

⁽¹⁾ Per barrel operating metrics are calculated independently. Therefore, the sum of individual amounts may not equal the total presented.

⁽²⁾ See Non-GAAP Financial Measures below.

Revenues

An analysis of revenues is as follows:

Produced Water Handling Revenues

Total produced water handling revenues and produced water handling revenues per barrel are as follows:

	Three Months Ended			Six Mon	Six Months Ended		
(in thousands, except per unit amounts)	June 30,				June 30,		
	2022		2021		2022		2021
Produced Water Handling Fees	\$ 52,703	\$	43,993	\$	102,597	\$	82,349
Skim Oil Sales Revenue	6,029		2,080		12,316		3,461
Total Produced Water Handling Revenue	\$ 58,732	\$	46,073	\$	114,913	\$	85,810
Produced Water Handling Fees/Bbl	\$ 0.69	\$	0.67	\$	0.69	\$	0.67
Skim Oil Sales Revenue/Bbl	0.08		0.03		0.08		0.03
Total Produced Water Handling Revenue/Bbl	\$ 0.77	\$	0.70	\$	0.77	\$	0.69

Produced water handling revenues for the three months ended June 30, 2022 as compared with the three months ended June 30, 2021 increased primarily due to:

- an increase of \$7.6 million due to a 122 kbwpd volume increase driven by activity associated with our long-term acreage dedication agreements,
- an increase of \$3.9 million in skim oil sales revenue due to higher crude oil prices and increased volumes on the system, and
- an increase of \$1.1 million due to contractual price adjustments.

Produced water handling revenues for the six months ended June 30, 2022 as compared with the six months ended June 30, 2021 increased primarily due to:

- an increase of \$17.2 million due to a 138 kbwpd volume increase driven by activity associated with our long-term acreage dedication agreements,
- an increase of \$8.9 million in skim oil sales revenue due to higher crude oil prices and increased volumes on the system, and
- an increase of \$3.0 million due to contractual price adjustments.

Water Solutions Revenue

Water solutions revenues for the three months ended June 30, 2022 as compared with the three months ended June 30, 2021 increased primarily due to:

• an increase of \$8.6 million due to a 196 kbwpd volume increase driven by higher recycling volumes on higher completion activities across the Permian Basin in response to recovering commodity prices.

Water solutions revenues for the six months ended June 30, 2022 as compared with the six months ended June 30, 2021 increased primarily due to:

 an increase of \$17.0 million due to a 201 kbwpd volume increase driven by higher recycling volumes on higher completion activities across the Permian Basin in response to recovering commodity prices.

Expenses

An analysis of expenses is as follows:

Direct Operating Costs

Direct operating costs for the three months ended June 30, 2022 as compared with the three months ended June 30, 2021 increased due to higher volumes as well as cost inflation in labor and chemical treatment expenses, offset by the absence of temporary power generation expenses. On a per barrel basis, direct operating costs were flat.

Direct operating costs for the six months ended June 30, 2022 as compared with the six months ended June 30, 2021 increased due to higher volumes, offset by the absence of temporary power generation expenses. On a per barrel basis, direct operating costs decreased primarily due to reduced temporary power generation expenses.

All our significant facilities have been on permanent power since the end of June 2021. For the three and six months ended June 30, 2021, the estimated incremental impact of temporary power expenses was \$1.6 million and \$4.3 million, respectively, or approximately \$0.02 and \$0.03 per barrel, respectively.

See Factors Affecting the Comparability of our Results of Operations — Temporary Power Costs for additional information.

Depreciation, Amortization and Accretion Expenses

Depreciation, amortization and accretion expense for the three and six months ended June 30, 2022 as compared with the three and six months ended June 30, 2021 increased primarily due to higher amortization expense related to a previously acquired customer contract, as well as depreciation expense related to new assets placed in service.

Abandoned Well Costs

Abandoned well costs for the three and six months ended June 30, 2022 related to the abandonment of two previously acquired SWD wells which were no longer economically beneficial to the operations of the Company, as well as the abandonment of a well under construction. See Item 1. Financial Statements — Note 4. Property, Plant and Equipment.

General and Administrative Expenses

General and administrative ("G&A") expenses for the three and six months ended June 30, 2022 as compared with the three and six months ended June 30, 2021 increased primarily due to increased compensation and benefits expenses, travel, and insurance costs corresponding with the increased head count required for our larger asset footprint, as well as incremental expenses that we now incur related to our becoming a public company. G&A expenses for the three and six months ended June 30, 2022 included stock-based compensation expense of \$3.0 million and \$5.2 million, respectively. No stock-based compensation expense was recorded for the three or six months ended June 30, 2021.

Impairment Expense

Impairment expense for the six months ended June 30, 2022 related to Midland Basin assets reclassified to assets held for sale during the first quarter of 2022. The assets were re-measured at their fair values less costs to sell, which resulted in the recognition of pre-tax impairment expense. See Item 1. Financial Statements — Note 4. Property, Plant and Equipment.

Loss on Asset Disposal and Other

Loss on asset disposal and other represents net gains and losses, and other expenses related to, the abandonment, disposal or exchange of assets. See Item 1. Financial Statements — Note 4. Property, Plant and Equipment.

Interest Expense, Net

Components of interest expense, net are as follows for the periods indicated:

	Three Months Ended					Six Months Ended			
(in thousands)		June 30,				June 30,			
		2022 2021			2022		2021		
Interest on Debt Instruments	\$	7,794	\$	7,575	\$	15,606	\$	10,368	
Amortization of Debt Issuance Costs		610		609		1,220		823	
Total Interest Expense		8,404		8,184		16,826		11,191	
Less: Amounts Capitalized		(1,089)		(860)		(1,726)		(1,216)	
Interest Expense, Net	\$	7,315	\$	7,324	\$	15,100	\$	9,975	

Interest expense, net for the three months ended June 30, 2022 remained flat as compared with the three months ended June 30, 2021 and related to our Notes, which were issued on April 1, 2021.

Interest expense, net for the six months ended June 30, 2022 as compared with the six months ended June 30, 2021 increased due to an increase in the total debt outstanding and an increase in the interest rate related to our debt instruments, as the Credit Facility was repaid with proceeds from the Notes issuance on April 1, 2021. The average outstanding debt balance for the six months ended June 30, 2022 was \$400 million compared with \$349 million for the six months ended June 30, 2021. The interest rate on our Notes is 7.625%, whereas the interest rate on the Credit Facility was 3.75%.

Net interest expense also increased due to higher amortization of debt issuance costs. The increase in net interest expense for each period is partially offset by an increase in capitalized interest as a result of a higher average interest rate and an increase in the amount of asset construction in progress.

Non-GAAP Financial Measures

Adjusted EBITDA, Adjusted Operating Margin and Adjusted Operating Margin Per Barrel are supplemental non-GAAP measures that we use to evaluate current, past and expected future performance. Although these non-GAAP financial measures are important factors in assessing our operating results and cash flows, they should not be considered in isolation or as a substitute for net income or gross margin or any other measures prepared under GAAP.

We believe this presentation is used by investors and professional research analysts for the valuation, comparison, rating, and investment recommendations of companies within our industry. Additionally, we use this information for comparative purposes within our industry. Adjusted EBITDA, Adjusted Operating Margin and Adjusted Operating Margin per Barrel are not measures of financial performance under GAAP and should not be considered as measures of liquidity or as alternatives to net income or gross margin. Adjusted EBITDA, Adjusted Operating Margin and Adjusted Operating Margin per Barrel as defined by us may not be comparable to similarly titled measures used by other companies and should be considered in conjunction with net income and other measures prepared in accordance with GAAP, such as gross margin, operating income or cash flows from operating activities.

Adjusted EBITDA

We use Adjusted EBITDA as a performance measure to assess the ability of our assets to generate sufficient cash to pay interest costs, support indebtedness and, at the discretion of our Board of Directors, return capital to equity holders. We also use Adjusted EBITDA as a performance measure related to the vesting and payout of PSUs granted under our short-term incentive plan. We define Adjusted EBITDA as net income (loss) plus: interest expense; income taxes; depreciation, amortization and accretion expense; abandoned well costs, asset impairment and abandoned project charges; losses on the sale of assets; loss on debt modification; stock-based compensation expense; and non-recurring or unusual expenses or charges (including temporary power costs, discussed above), less any gains on sale of assets.

Adjusted Operating Margin and Adjusted Operating Margin per Barrel

Our Adjusted Operating Margin and Adjusted Operating Margin per Barrel are dependent upon the volume of produced water we gather and handle, the volume of recycled water and groundwater we sell and transfer, the fees we charge for such services, and the recurring operating expenses we incur to perform such services. We define Adjusted Operating Margin as Gross Margin plus depreciation, amortization and accretion and temporary power costs. We define Adjusted Operating Margin per Barrel as Adjusted Operating Margin divided by total volumes handled, sold or transferred. Adjusted Operating Margin and Adjusted Operating Margin per Barrel are non-GAAP financial measures.

We seek to maximize our Adjusted Operating Margin in part by minimizing, to the extent appropriate, expenses directly tied to operating our assets. Landowner royalties, utilities, direct labor costs, chemical costs, workover and repair and maintenance costs, and contract services comprise the most significant portion of our expenses. Our operating expenses are largely variable and as such, generally fluctuate in correlation with throughput volumes.

Our Adjusted Operating Margin is incrementally benefited from increased Water Solutions recycled water sales. When produced water is recycled, we recognize cost savings from reduced landowner royalties, reduced pumping costs, lower chemical treatment and filtration costs, and reduced power consumption.

The following table sets forth a reconciliation of net income (loss) as determined in accordance with GAAP to Adjusted EBITDA and Adjusted Operating Margin for the periods indicated:

(in thousands)	Three Moi Jun	Inded	Six Mont June	ided		
	 2022		2021	2022		2021
Net Income (Loss)	\$ 4,039	\$	4,561	\$ (2,578)	\$	7,376

Liquidity and Capital Resources

Overview

Our primary needs for cash are permitting, development and construction of water handling and recycling assets to meet customers' needs, payment of contractual obligations including debt, and working capital obligations. When appropriate, we enhance shareholder returns by returning capital to shareholders, such as through dividend payments and share buybacks (to the extent determined by our Board).

Funding for these cash needs may be provided by any combination of internally generated cash flow, borrowings under the Credit Facility, or accessing the capital markets. We believe that our cash flows, undrawn Credit Facility and leverage profile provide us with the financial flexibility to fund attractive growth opportunities in the future.

As of June 30, 2022, we had a cash balance of \$35.1 million and working capital, defined as current assets less current liabilities, of \$58.5 million. We had \$400.0 million face value of Notes outstanding, with \$200.0 million of availability under the Credit Facility. As of June 30, 2022, we were in compliance with all the covenants under our Credit Facility and the indenture governing the Notes. See Item 1. Financial Statements — Note 6. Long-Term Debt for descriptions of the Credit Facility and Notes

In addition, we are on track to achieve our SPT, as defined in the indenture governing the Notes, which is to increase our annual Recycling Key Performance Indicator ("KPI") to 60% by 2022 from a 2020 baseline of

42.1%, with an observation date of December 31, 2022. The KPI is designed to reduce groundwater withdrawal for water intensive industrial operations in the Permian Basin by increasing our sales of recycled produced water.

Dividends and Distributions

On February 25, 2022, and May 6, 2022, our Board of Directors declared quarterly dividends on our Class A common stock of \$0.09 per share for first and second quarter 2022, respectively. In conjunction with the dividend payments, distributions of \$0.09 per unit per quarter were paid to unit holders of Solaris LLC. Dividends were also paid on unvested shares of restricted stock and RSUs. Dividends accrue on PSUs and are paid upon vesting. The total amount paid on such dividends and distributions was \$13.9 million for the six months ended June 30, 2022.

On August 3, 2022, our Board of Directors declared a dividend on our Class A common stock for the third quarter of 2022 of \$0.09 per share. The dividend will be paid on August 30, 2022, to holders of record of our Class A common stock as of the close of business on August 17, 2022. In conjunction with the dividend payment, a distribution of \$0.09 per unit will be paid to unit holders of Solaris LLC, subject to the same payment and record dates.

Cash Flows from Operating Activities

For the six months ended June 30, 2022, Net Cash Provided by Operating Activities totaled \$37.3 million as compared with \$30.7 million for the six months ended June 30, 2021. The net increase is primarily due to the \$44.6 million increase in total revenues offset by increases in direct operating costs and general and administrative expenses. Net Cash Provided by Operating Activities also included reductions of \$21.2 million and \$9.6 million for the six months ended June 30, 2022 and 2021, respectively, associated with changes in working capital items. Changes in working capital items adjust for the timing of receipts and payment of actual cash.

Cash Flows from Investing Activities

For the six months ended June 30, 2022, Net Cash Used in Investing Activities totaled \$48.3 million as compared with \$42.4 million for the six months ended June 30, 2021. Expenditures for property, plant and equipment were higher in 2022 as compared with 2021 due primarily to increased capital activity to support our growing operations, including the recently signed management agreement with Chevron.

Cash Flows from Financing Activities

For the six months ended June 30, 2022, Net Cash Used in Financing Activities totaled \$13.9 million as compared with Net Cash Provided in Financing Activities of \$17.9 million for the six months ended June 30, 2021. Cash used in financing activities for the first six months of 2022 related to dividends and distributions paid. Cash provided by financing activities for the first six months of 2021 included the issuance of our \$400.0 million aggregate principal amount of Notes on April 1, 2021, with net proceeds of \$390.6 million used to pay down the outstanding Credit Facility balance of \$297.0 million and redeem Redeemable Preferred Units for \$74.4 million.

Capital Requirements

For the year of 2022, our estimate of capital expenditures is between \$140.0 and \$150.0 million. Our capital expenditure forecast supports the recently signed full-cycle water management agreement with Chevron as well as incremental projected growth from our other long-term contracted customers. We intend to fund capital requirements through our primary sources of liquidity, which include cash on hand, cash flows from operations and our borrowing capacity under the Credit Facility.

Emerging Growth Company Status

We are an "emerging growth company," as defined in the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not "emerging growth companies." We may take advantage of these exemptions until we are no longer an "emerging growth company." Section 107 of the JOBS Act provides that an "emerging growth company" can take advantage of the extended transition period afforded by the JOBS Act for the implementation of new or revised accounting standards. We have elected to use the extended transition period for complying with new or revised accounting standards and as a result of this election, our financial statements may not be comparable to companies that comply with public company effective dates. We may take advantage of these exemptions up until the last day of the fiscal year following the fifth anniversary of our initial public offering or such earlier time that we are no longer an emerging growth company. We would cease to be an emerging growth company if we have more than \$1.07 billion in annual revenue, we have more than \$700.0 million in market value of our stock held by non-affiliates (and we have been a public company for at least 12 months and have filed one annual report on Form 10-K) or we issue more than \$1.0 billion of non-convertible debt securities over a three-year period.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices. Currently, our market risks relate to potential changes in the fair value of our long-term debt due to fluctuations in applicable market interest rates. Going forward our market risk exposure generally will be limited to those risks that arise in the normal course of business, as we do not engage in speculative, non-operating transactions, nor do we utilize financial instruments or derivative instruments for trading purposes.

Commodity Price Risk

The market for our services is exposed to fluctuations in the prices of crude oil and natural gas to the extent such fluctuations impact drilling and completion activity levels and thus impact the activity levels and timing of activity of our customers in the exploration and production and oilfield services industries.

A portion of our revenue is directly exposed to fluctuations in the price of crude oil because one of our largest customer contracts provides for rates that periodically fluctuate within a defined range in response to changes in WTI. According to the terms of the contract, the per barrel fee increases when WTI exceeds a certain base price.

We do not currently intend to hedge our exposure to commodity price risk.

Interest Rate Risk

We are subject to interest rate risk on a portion of our long-term debt under the Credit Facility. We do not currently have any borrowings under our Credit Facility.

Item 4. Controls and Procedures

In accordance with Exchange Act Rules 13a-15 and 15d-15, we have evaluated, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of June 30, 2022. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based on the evaluation of our disclosure controls and

procedures as of June 30, 2022, our principal executive officer and principal financial officer have concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There were no changes in internal control over financial reporting identified in the evaluation for the quarter ended June 30, 2022, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Due to the nature of our business, we may become, from time to time, involved in routine litigation or subject to disputes or claims related to our business activities. In the opinion of our management, there are no pending litigation, disputes or claims against us which, if decided adversely, will have a material adverse effect on our financial condition, cash flows or results of operations.

Item 1A. Risk Factors

There have been no material changes or updates to our risk factors that were previously disclosed in Part I, Item 1A of our 2021 Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

- (a) None.
- (b) None.
- (c) None.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

As described in Item 1. Financial Statements – Note 4, on August 1, 2022, in connection with the closing of an acquisition of assets by a wholly-owned subsidiary of Solaris LLC, Aris Inc. issued 3,365,907 shares of its Class A common stock to the seller of such assets as consideration therefor. Contemporaneously with the issuance of such shares of Class A common stock, Solaris LLC issued 3,365,907 Solaris LLC units to Aris Inc. Such shares of Class A common stock and Solaris LLC units were issued in a private placement not involving a public offering pursuant to the exemption from the registration requirements of Securities Act of 1933 provided by Section 4(a)(2) of the Securities Act of 1933.

Item 6. Exhibits

The exhibits listed are filed as part of, or incorporated by reference into, this Quarterly Report on Form 10-Q.

3.1	Amended and Restated Certificate of Incorporation of Aris Water Solutions, Inc. (incorporated by reference to Exhibit 4.1 to the Company's Registration Statement on Form S-8 filed on October 26, 2021, File No. 333-260499).
3.2	Amended and Restated Bylaws of Aris Water Solutions, Inc. (incorporated by reference to Exhibit 4.2 to the Company's Registration Statement on Form S-8 filed on October 26, 2021, File No. 333-260499).
10.1†	Aris Water Solutions, Inc. Executive Change in Control Severance Plan (incorporated by reference to Exhibit 10.1 of to the Company's Current Report on Form 8-K filed on June 13, 2022, File No. 001-40955).
31.1*	Certification of Amanda M. Brock pursuant to Rule 13a-14(a) or 15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO RULE 13A-14(A) AND RULE 15D-14(A) OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

I, Amanda M. Brock, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Aris Water Solutions, Inc. (the "registrant");
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - any fraud, whether or not material, that involves management or other employees who have a significant role
 in the registrant's internal control over financial reporting.
